Georgia's soothing singer/songwriter who's developed a very unique blend of folk, jazz, and country due to the influences of Coe, Allman, and Petty music on his love for old jazz classics.

Corey Crowder established his strong faith, family values, and timeless Americana perspective growing up in Covington, GA. Gifted storytelling lyrics and soulful melodies earn him recording and publishing contracts, major television placement of his songs, and nationwide tours. With a mix of rock, soul and country, his current album "Lost & Found" displays his musical talent and Southern roots through its broad public appeal. With four albums to his name, 26-year-old Corey Crowder is one of the South's top up-and-coming performers! Tonight, friend and fellow artist, Hannah Thomas, opens the show with soulful pop/country songs of her own!

WEBB WILDER 'UNPLUGGED'
SAT, JUL 24TH 8:30 PM TO 10:30 PM+ \$15 Advance / \$17.50 Day of Show

www.WEBBWILDER.com **TICKETS**

"There are roots rockers, and then there's Webb Wilder. For over 20 years, Wilder has mined rock 'n' roll's most hallowed ground, but unlike so many others, he has approached it all with a rare irreverence and wit. Wilder's music has a sense of fun and imagination often lacking among his peers."

Gibson Guitar magazine.

Webb Wilder is an Alt Country legend from Nashville. Music, movies, voice overs, even a book, Webb's done it all. Humorously self acclaimed as "Last of the Full Grown Men", Wilder is a legendary A-list Roots Rock musician, a B-Movie film star, a former DJ on XM Satellite radio, and an "Electrifying artist", seen on MTV, CMT and NPR. His raucous live shows usually feature his booming baritone, blazing guitar licks and punchy rhythm section overlaid with a healthy dose of his quirky humor, but tonight he's playing with just his bass player in a more 'unplugged' version as he's on tour in the area with none other than John Hiatt!

Wilder's most recent CD, "More Like Me" on the Blind Pig Label hit NUMBER ONE on the Roots Rock Chart this past year! - as did his Live CD "Born to be Wilder" in 2008. We are honored to have him at The Crimson Moon Cafe and expect to be packed for this rare opportunity to see him 'unplugged' and close enough to touch so advance reservations are highly recommended!

*"Blending influences ranging from Woody Guthrie and the Grateful Dead to Kings of Leon and Ryan Adams, the band delivers a mix of acoustic folk, bluegrass, rock and blues with a visceral intensity to match their raucous live gigs." - John Schacht, Creative Loafing - Charlotte, NC*

A high energy 'roots' band who've roared from the foothills of Appalachia on to the east coast music scene on the wheels of a rugged tour schedule that has turned their fresh and distinct sound into a solid buzz on the street that is palpable and growing! Growing from seeds of the folk, blues, and bluegrass found abundant in the Carolinas, yet shaped by the undeniable power of rock and roll, The New Familiars combine an amazing passion for harmony with multi-instrumental talent and unusual storytelling abilities. All this, combined with their intense live performances, serve as signs pointing to one very clear statement: The New Familiars are a powerful swell in a new wave of honest, roots-derived rock music sweeping the nation... coming soon... to The Crimson Moon!

"It's Americana with a grand heartbeat." - **Jeff Hahne - Creative Loafing - Charlotte, NC**

"The New Familiars play a fresh (if not breakthrough) blend of country blues, folk rock and gritty acoustic tunes. They've got honky-tonk elements of Dobro and harmonica; mountain touches of banjo and rough-hewn harmonies made for '70s-era Southern Rock." - **Alli Marshall - Mountain Xpress - Asheville, NC**

"Music's fun when great musicians are clearly enjoying themselves. These guys are a good reminder of that." - **Dan Costello, Urban Folk NYC**

*Think Bluegrass, Newgrass, Gospelgrass, Rock N' Rollgrass... and you're thinking John Cowan, previous lead singer for New Grass Revival - on the intimate stage of The Crimson Moon Café!*

John Cowan and his New Grass Revival band mates Sam Bush, Bela Fleck and Pat Flynn introduced a new generation of music fans to an explosive, experimental brand of bluegrass...Newgrass...which essentially played contemporary music on traditional instruments with enough talent, style and energy to make it unforgettable. After NGR disbanded in 1990, Cowan toured with the the **Doobie Bros.** for a bit, but soon returned to his Newgrass roots and formed the John Cowan Band, surrounding himself with only the finest acoustic musicians. That line up now includes **Jeff Autry** on guitar, **John Frazier** on mandolin, **Shad "Lightning" Cobb** on fiddle and, in larger venues, **Bryon Larrance** on percussion – all some of the best in the world. Now recapturing the magic of that ground-breaking experimentation and taking it to the next level, John invites old NGR fans to come to a JCB jam and see for yourself how magically his 'sound' has morphed over the miles and years since his New Grass Revival days! There's one at 'The Moon' tonight while he's taking a break from touring again with The Doobie Brothers!
